**HEADS UP!!**

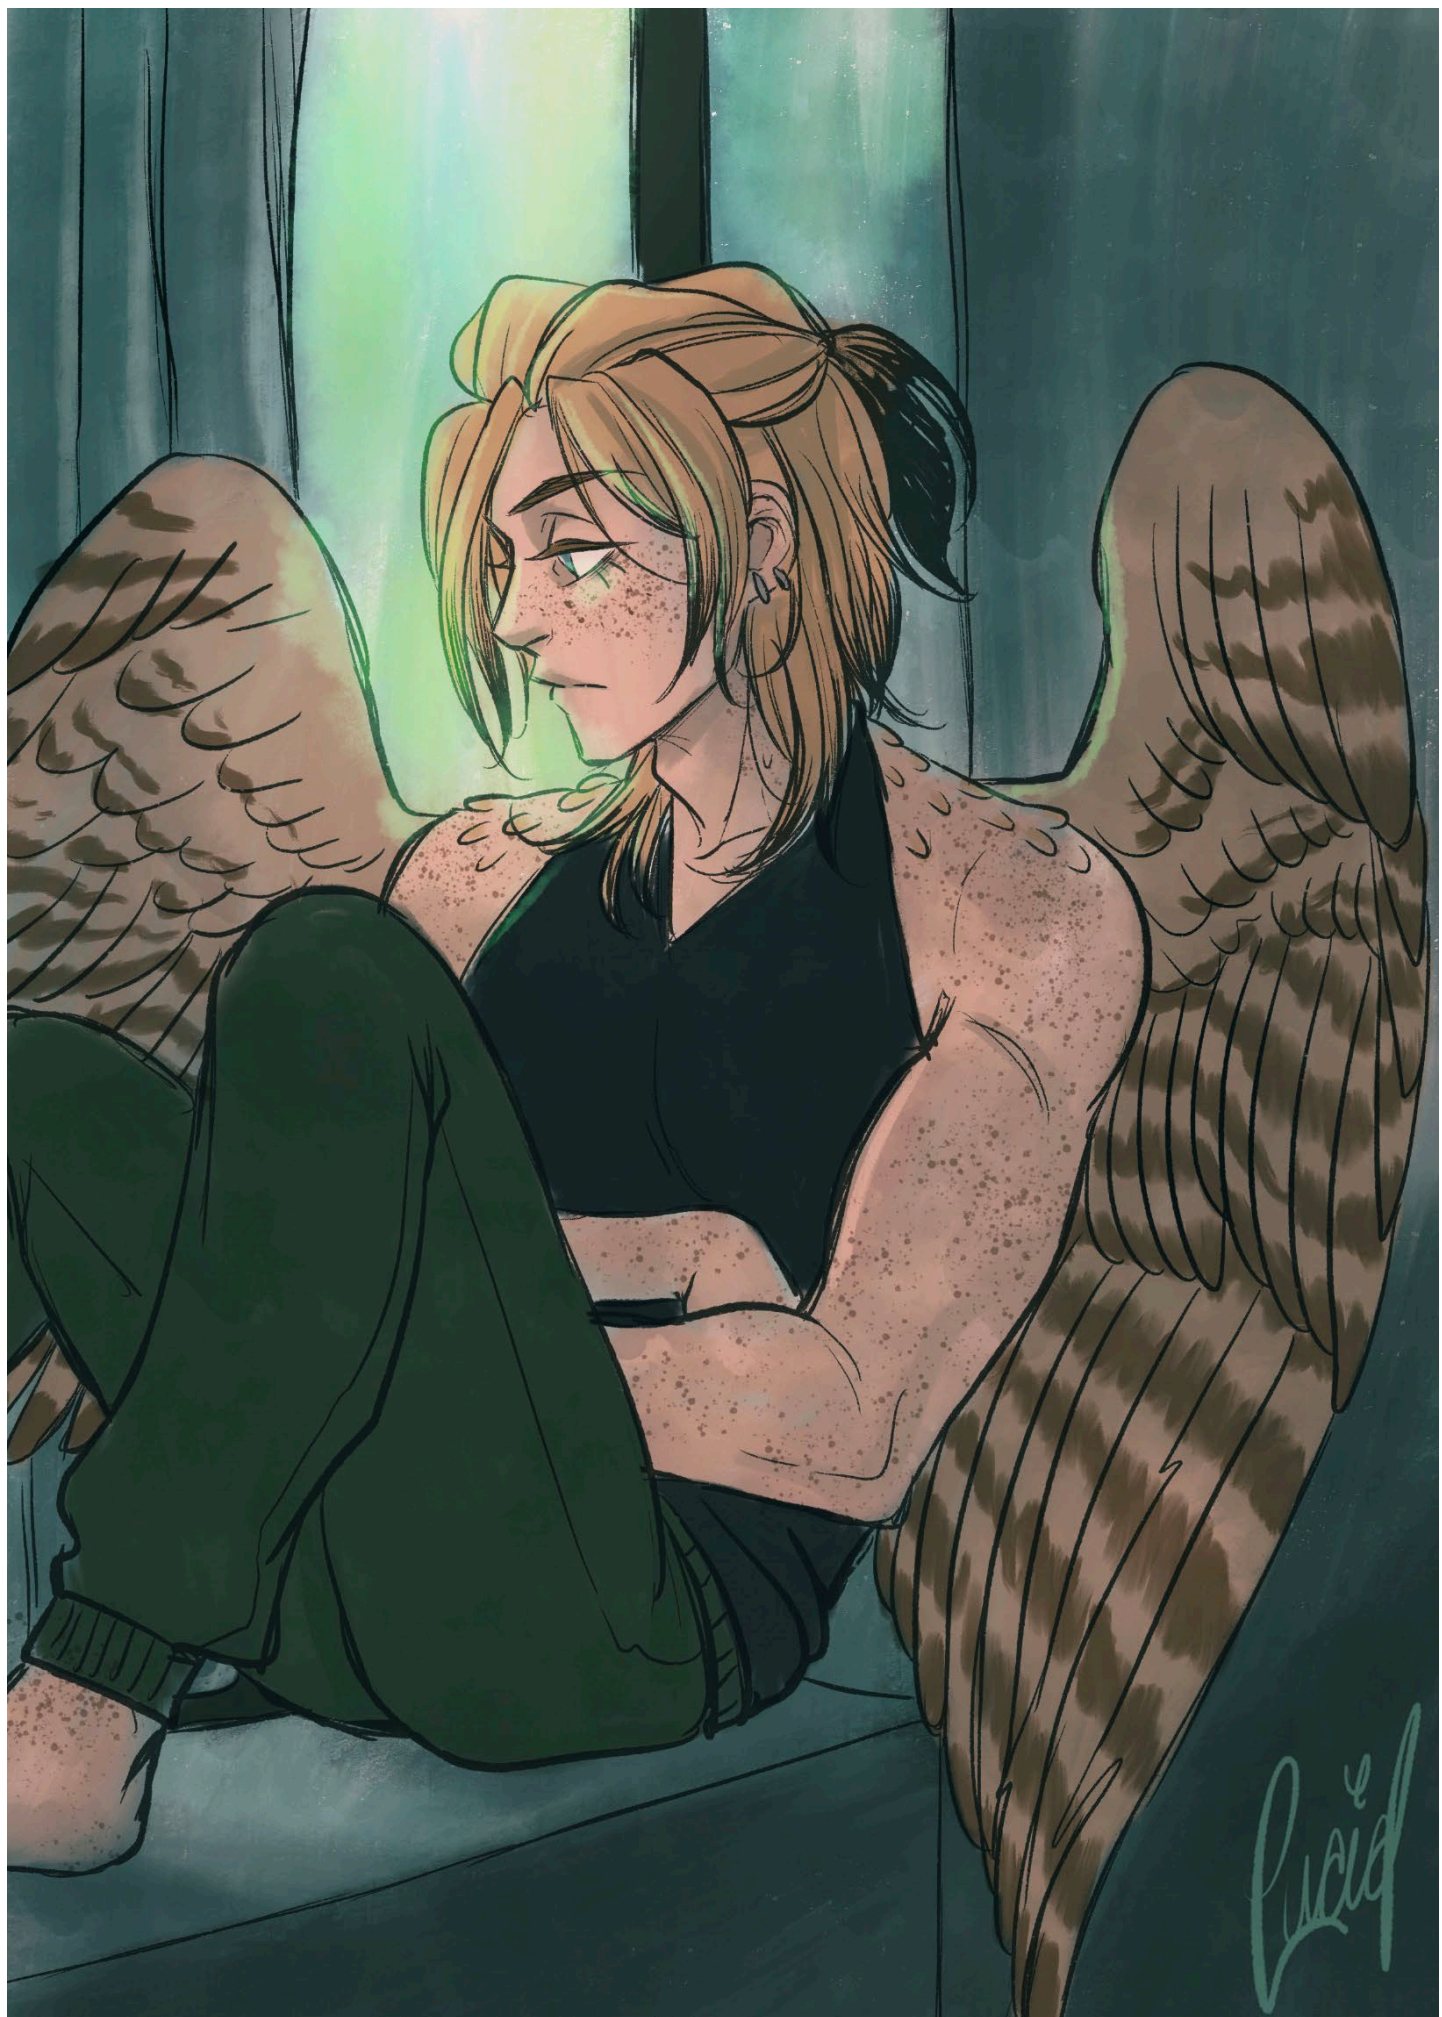

The sketchbook portion of this has some hella Avialae spoilers, so I've marked another part past the NSFW section with an extra warning.

Lucky Juice is probably doing a short Devilman doujinshi and I made this very professional chart to discuss what level of monster dick to give Akira. (Jack called me a coward for considering anything less than 10.)

I can't.

SO. UH. SPOILERS. These are some new characters from chapter 5 of Avialae. Ezra is Gannet's uncle (mother's side) and Silas is Gannet's father. It's hard to give much more about them without spoiling the entirety of chapter 5 though.

28 → 44

The top two are them when they're younger...I'll explain...

So Silas goes back to find his bird wife, but finds her brother, Ezra, instead. A lot of shit happens and they start this really weird relationship built on greif and sexual tension.

That story takes place 15 years ago from where Avialae is now, and is not in the main storyline of Avialae. But I might do that story as a separate comic. (Definitely not as long as Avialae, but still like 100 pages bc that's how I am.)

I'll probably be more in a digital style like this bc I'm kind of over fighting with traditional inking.
