The Galo pieces inside move around when you shake it!

Uhh I am working on a Promare doujin?? It's very short but I crave that Galo/Lio mineral. (I like either topping but y'all know my preferences tilt towards twinkly power bottoms.)

The Very Stupid plot for this is Galo thinks Lio is sick and wants to nurse him back to health but in reality Lio's got a bad case of residual promare heat .

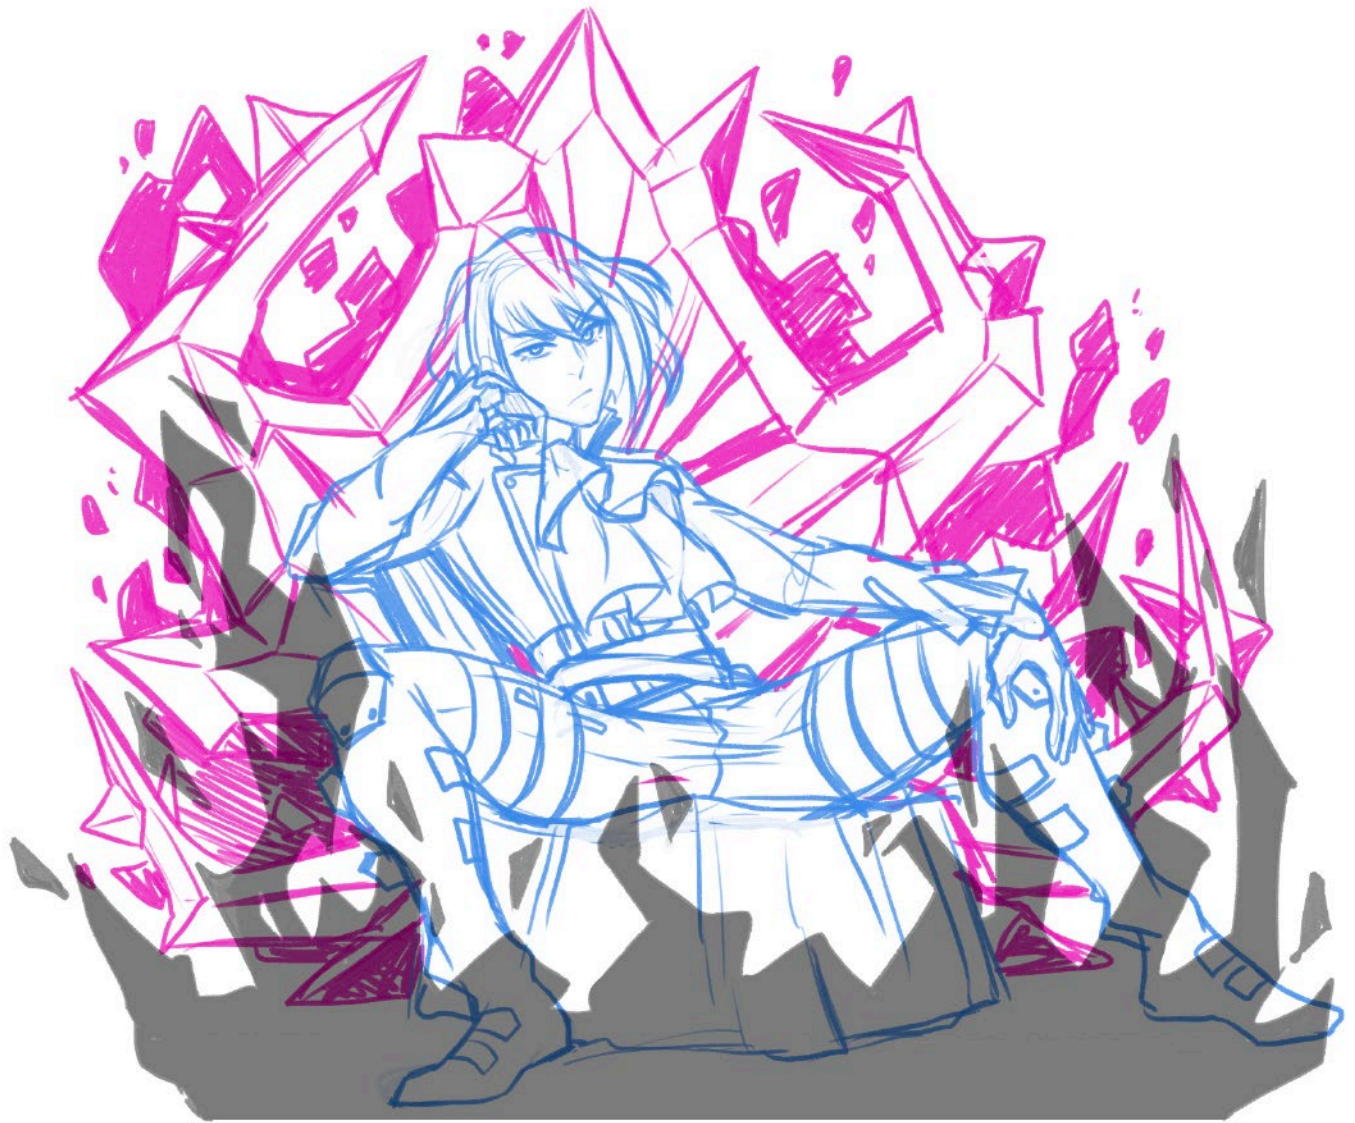

He steals Galo's jacket lmao;;

No promises on if I can finish this but the desire! Is there!

I'd like to make Lio and Galo button up shirts! Just gotta find the time to talk to manufacturers... *w*;;;

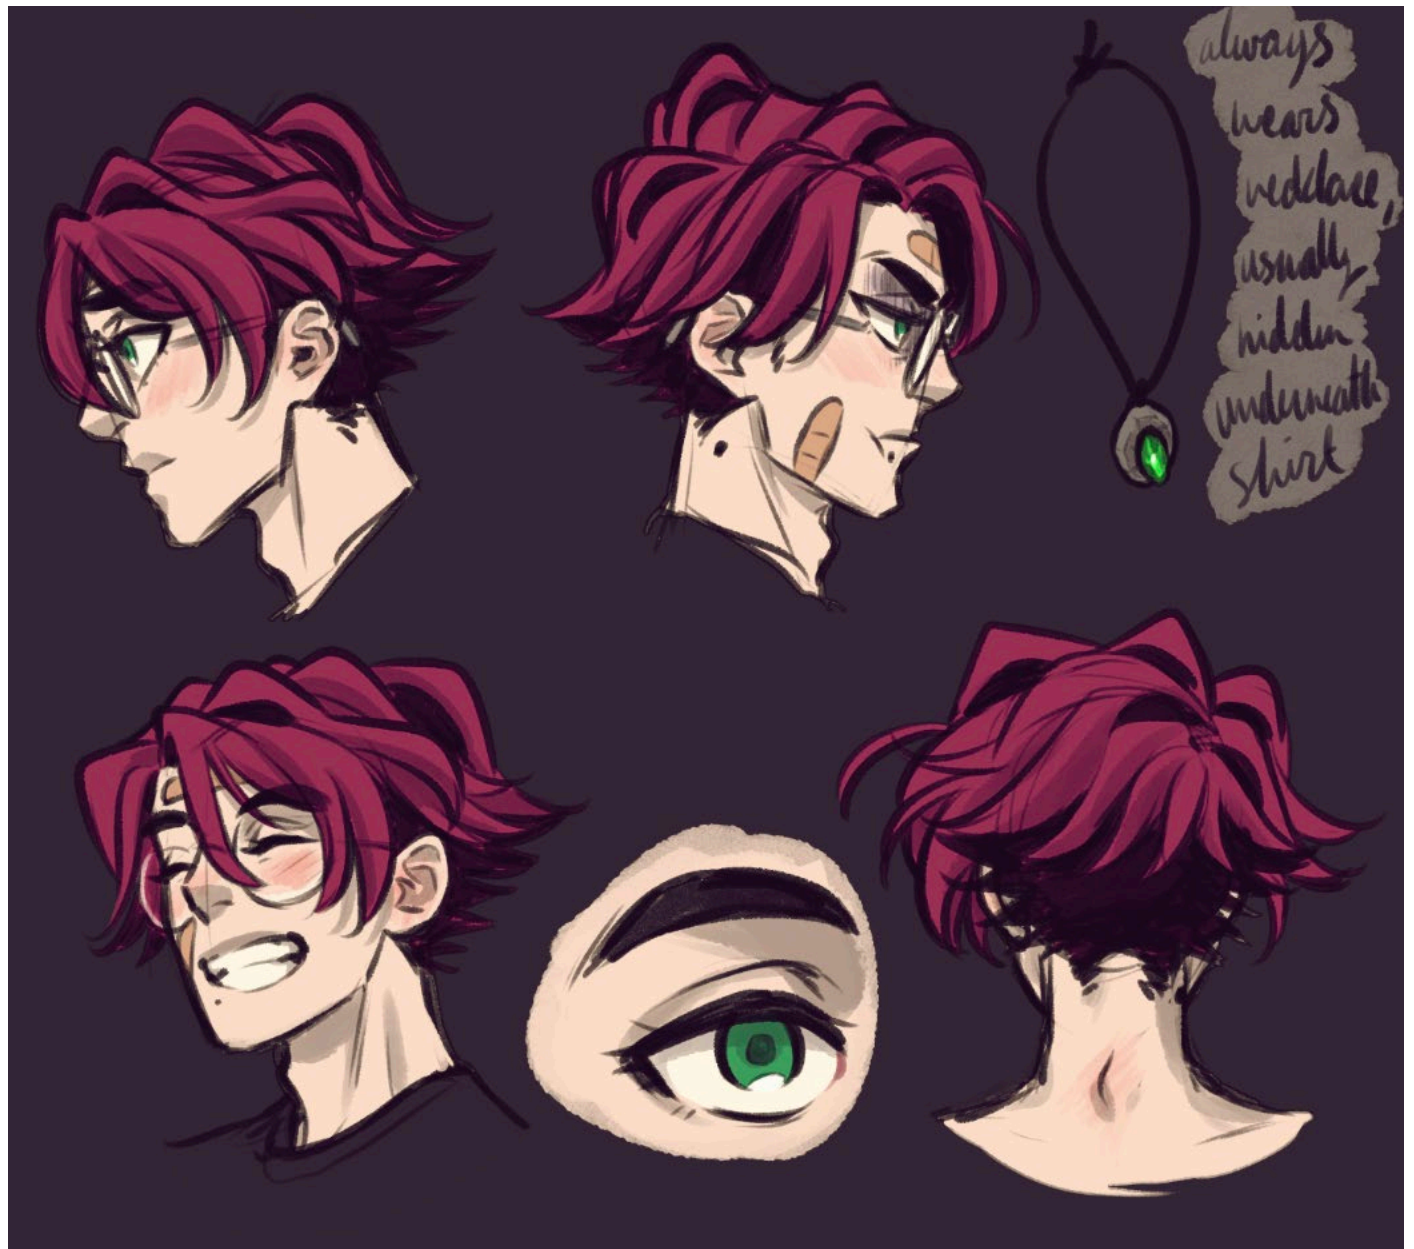

Multi piece Lio standee that I didn't finish in time for this merch release. Maybe next round in a few months!

Same with this Byleth enamel pin...I'd like to do a bunch of war children pins but enamel pins are a special kind of vector based hell.

- eyes glow when angry
- facial/horny resting bitch face
- 6'2"
- massive, thanks to werewolf genes and sheer willpower
- infinitely more fashionable than Avery
- in Avery's words: "a Romanian sex god"
- pointy ears when human, but not pointy enough to turn leads
- embodies an eternal "fuck off" vibe, leans into it

- can palloff extremely
- hipster manbun undercut b/c he's 1) hot 2) a fucking werewolf

This is my typography process for The Hunt title! I don't miss having a shitty design/illustration job but boy howdy there's a part of my brain that still loves doing handdrawn typography.

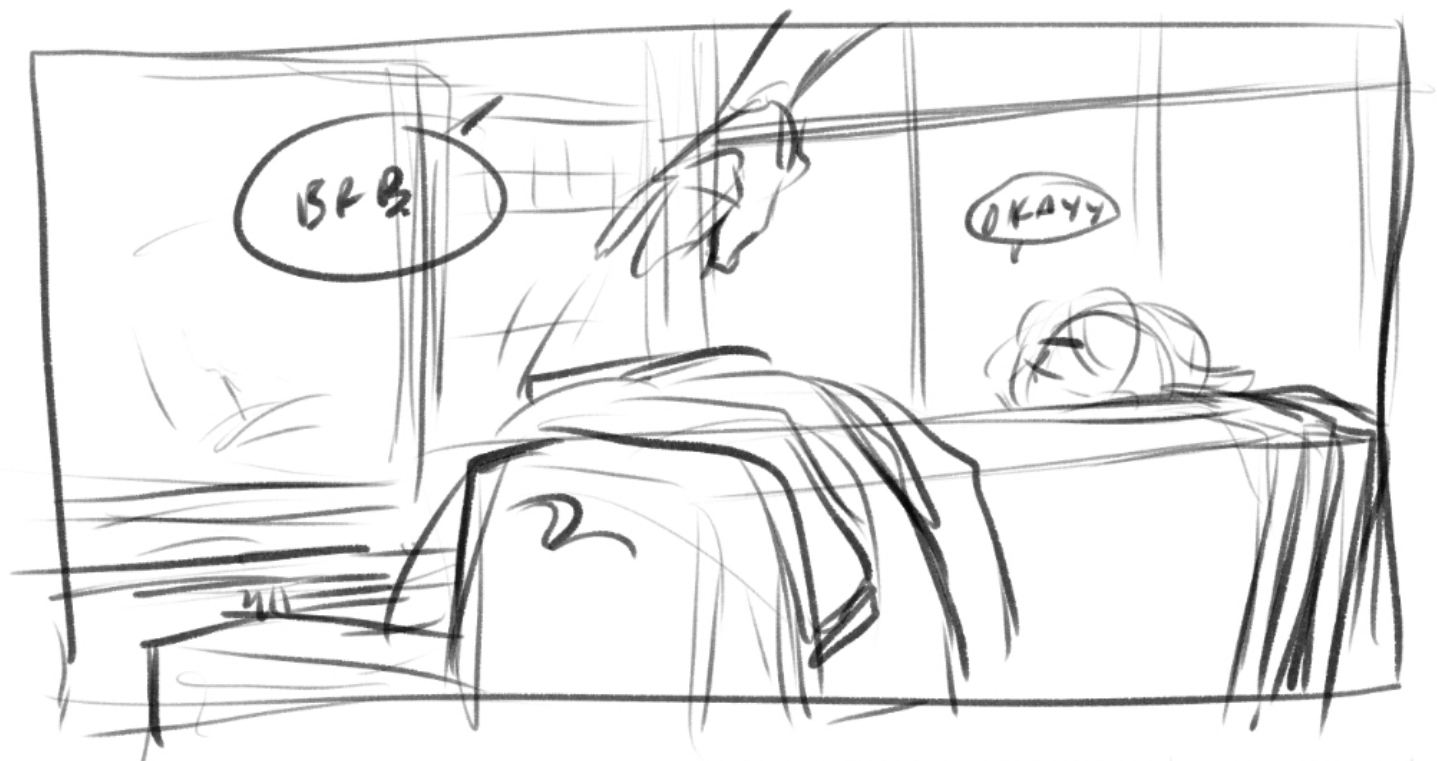

Hello welcome to the really pathetic sketchbook portion of this PDF. I am not joking when I say I no longer sketch as much as I used to. I really don't have time to do it, and honestly it's almost always a bad idea for me to let myself sketch anything because I have zero self control and will make new OCs That I Will Have To Make A Comic For. (fresh example: these assholes.)

Short, very messy one off comic of Avery and Rhys! I'd like to finish this at some point but please enjoy this example of how messy my sketches have become.

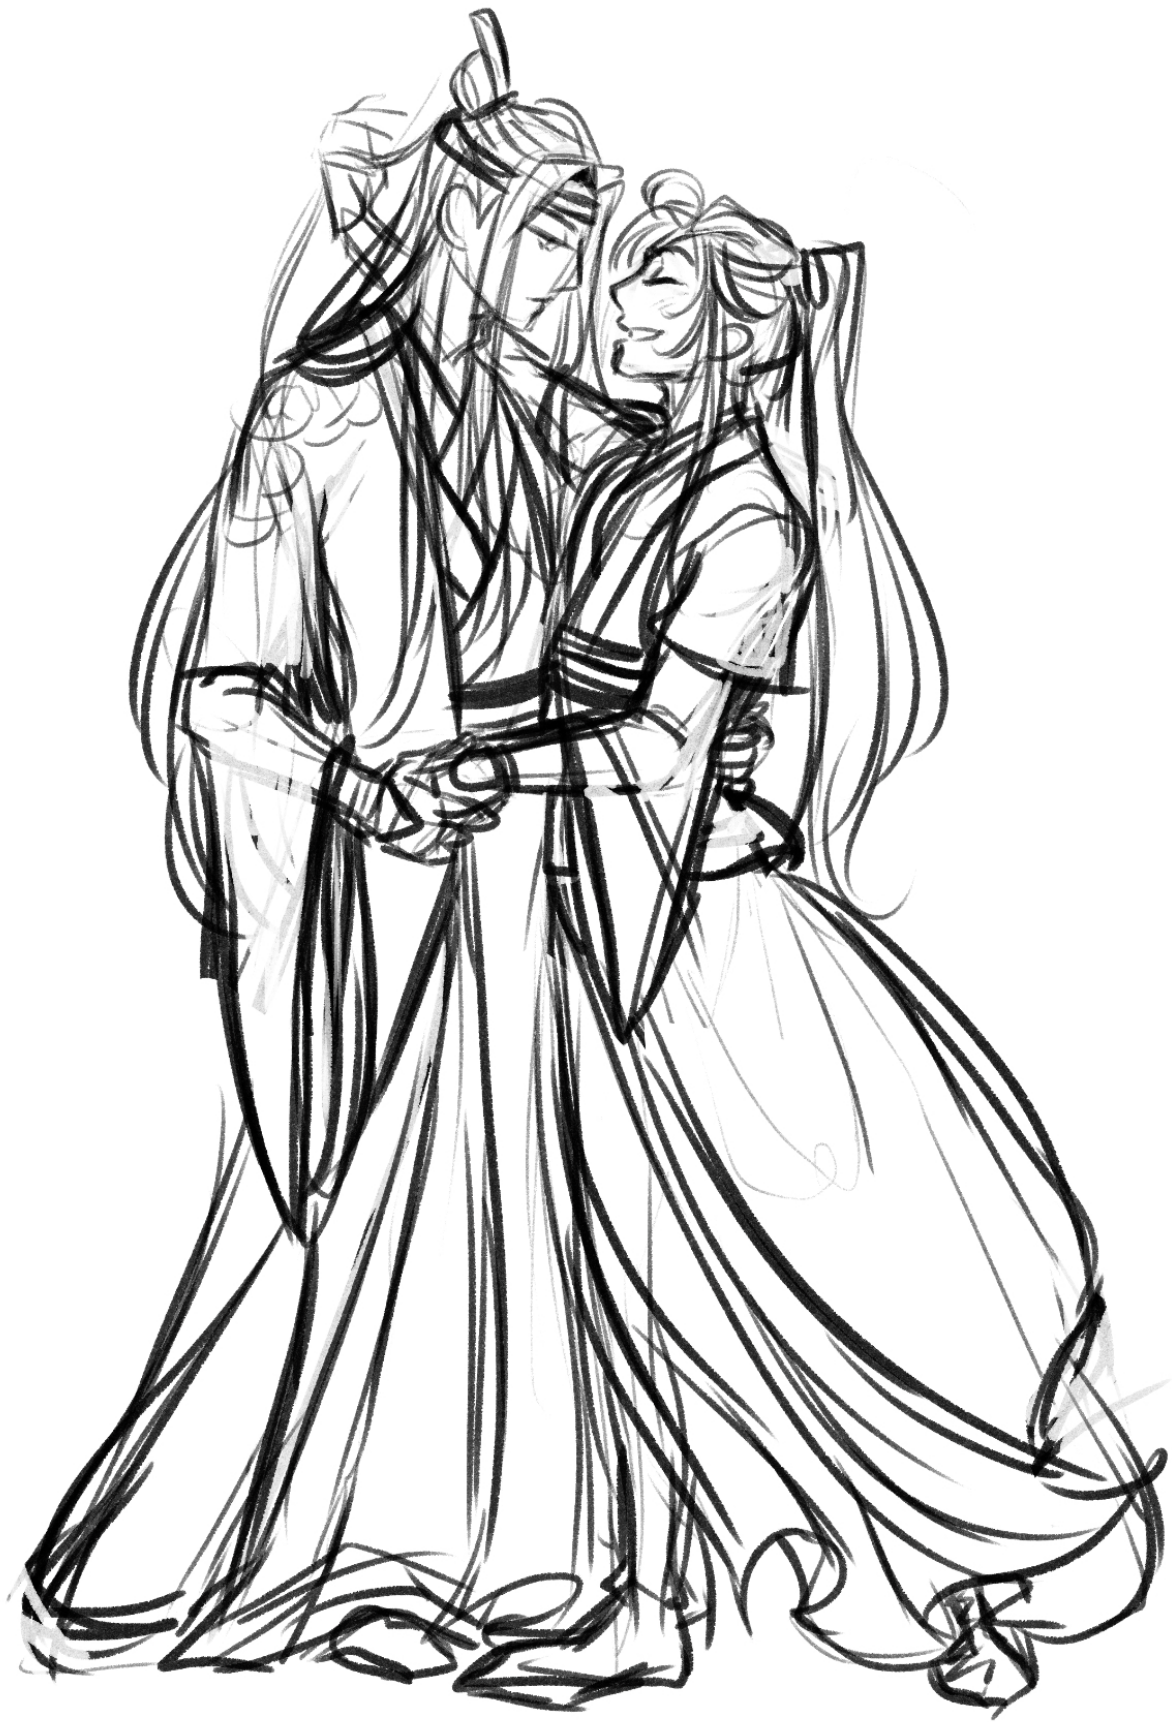

Cute Halloween doodle I ended up not having time to finish!

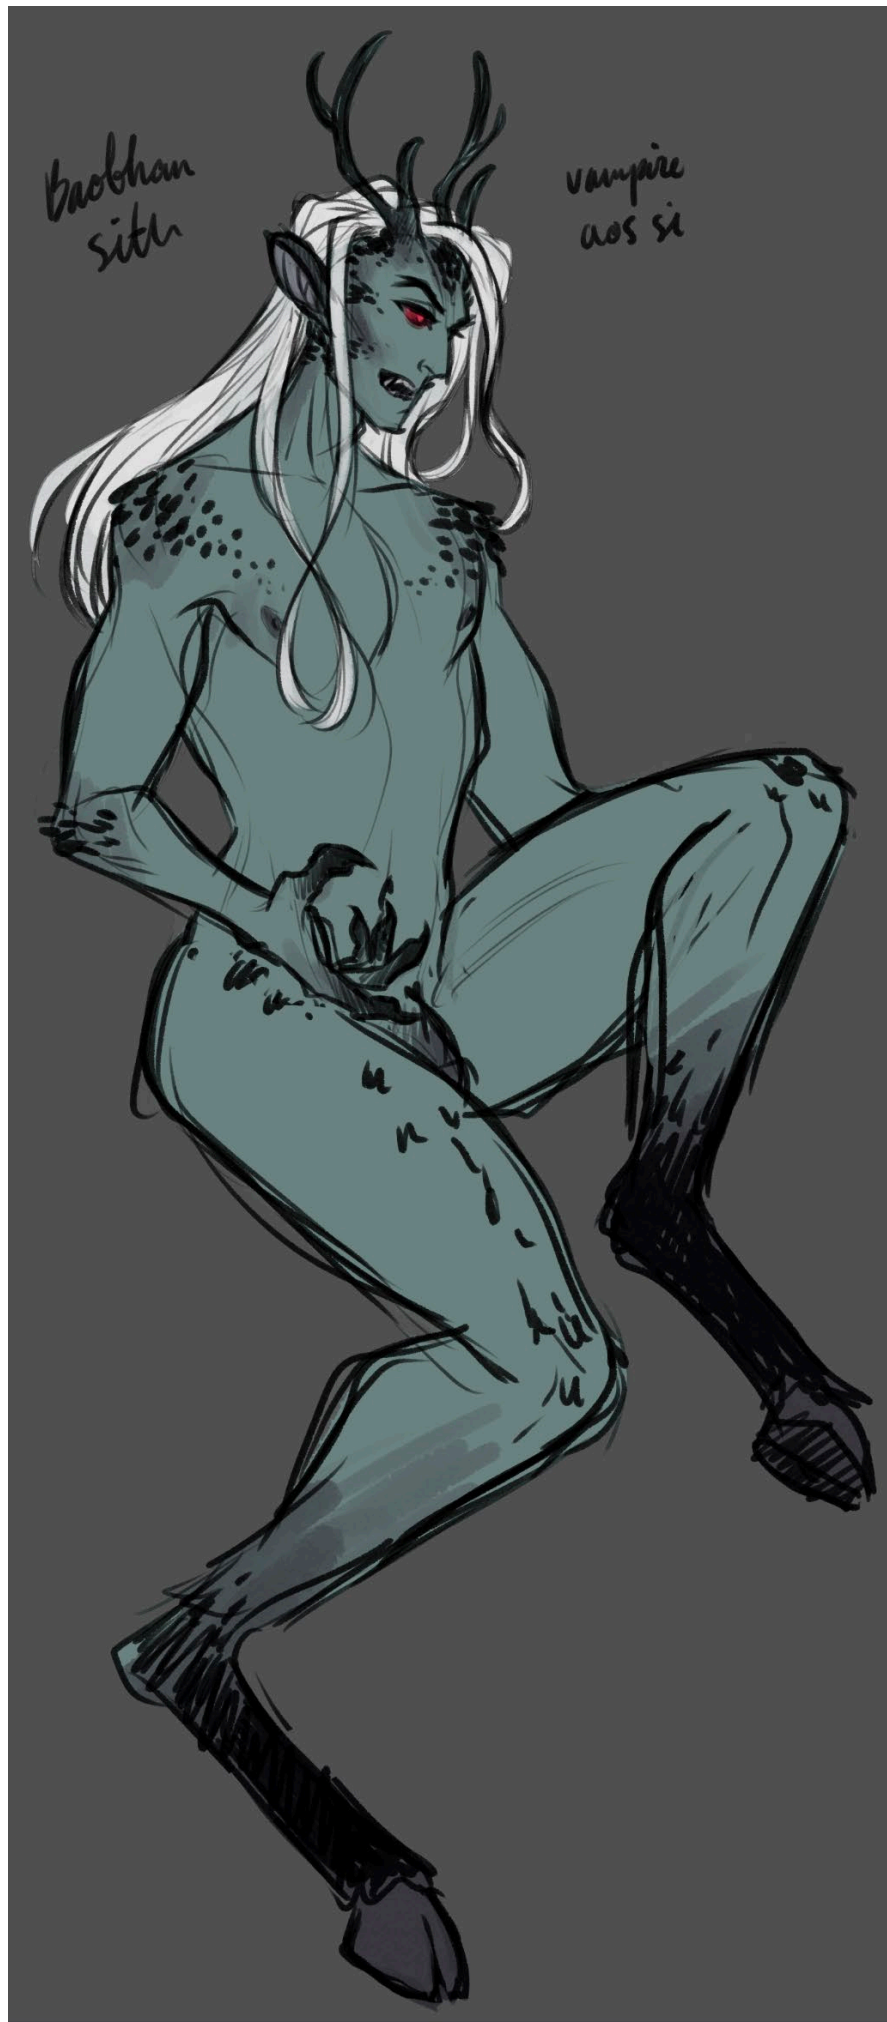

This is a sketch for a wangxian standee I'd like to make! Might still get around to it, but chinese BL novel merch rarely reaches my merch priority lists since I can only offer it as freebies. ;-;

I can't even begin to explain who this is without spoiling a lot of shit for The Hunt. I might not even use him since he needs a boyfriend and You Know How I Am.

A baobhan sith is a type of fairy... but is also a vampire? Actual fairy folklore is like Scary as Shit and Totally My Brand.

Anyway I get one step closer to becoming full furry every day.
